

Sample Four-Year Plan

HDFS Child & Adolescent Development concentration

[for students starting the HDFS major in or after Fall 2015]

The four-year plan below shows one way to complete courses to meet graduation requirements in the HDFS child and adolescent development concentration. Many courses, especially those meeting campus General Education requirements, may be taken in a different order than is shown here. Most HDFS courses, however, can be taken only in the semesters (fall or spring) shown. If you're planning a pre-med or other pre-professional programs, or planning a semester's study abroad, you'll need to make significant changes to this plan. And, always, use this plan only as a guide. Consult your academic advisor for suggestions for open electives suited for your career plans, and as you develop, modify and move through your own plan.
